

READING STRATEGY

READING IN SUBJECTS

Staff are trained in a whole school approach to reading and within each subject there is a disciplinary approach. All teachers have access to SAS and this is used to inform teaching and monitoring.

READING INDEPENDENTLY FOR PLEASURE

We are a reading school and reading is grounded and embedded throughout: competitions, well stocked library, regular visits to the library, dedicated tutor time, celebrations and reading ambassadors amongst many other opportunities.

SUPPORT FOR STRUGGLING READERS

All students are tested using the NGRT. This then triggers the next steps and further support required for each and every child. Retesting is then conducted to measure impact and monitor progress.
