

Reading in Geography

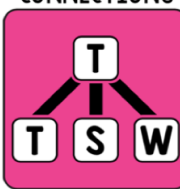

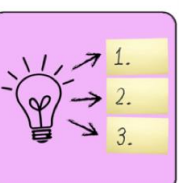

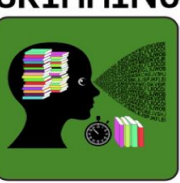

We read in Geography to gain knowledge and understanding of the world around us. Written texts in Geography add depth and context; they allow pupils to make connections with the human and physical worlds around them. In Geography, we read beyond the written word and show pupils how to read data, graphs, charts, maps and other visual sources.

Distinctive features of reading in Geography	Strategies for successful reading in Geography
✓ Texts /visuals are typically concept and idea dense. <i>We read to learn new information or to build on previous knowledge.</i>	✓ Close reading and rereading to ensure accurate comprehension.
